1.2 Trouve les nombres mystères.

$$\text{Spider} + \text{Owl} + \text{Bat} + \text{Cat} = 2222$$

$$2 \text{ Spiders} + 2 \text{ Bats} + 2 \text{ Cats} = \boxed{}$$

$$\text{Spider} + 2 \text{ Owls} + 2 \text{ Bats} + \text{Cat} = 2442$$

$$2 \text{ Spiders} + \text{Owl} + 3 \text{ Bats} = \boxed{}$$

8.4 Trouve les nombres manquants.

$$\text{cupcake with green frosting} = 50$$

$$\text{cupcake with blue frosting and bones} = 5$$

$$\text{cupcake with blue frosting} = 100$$

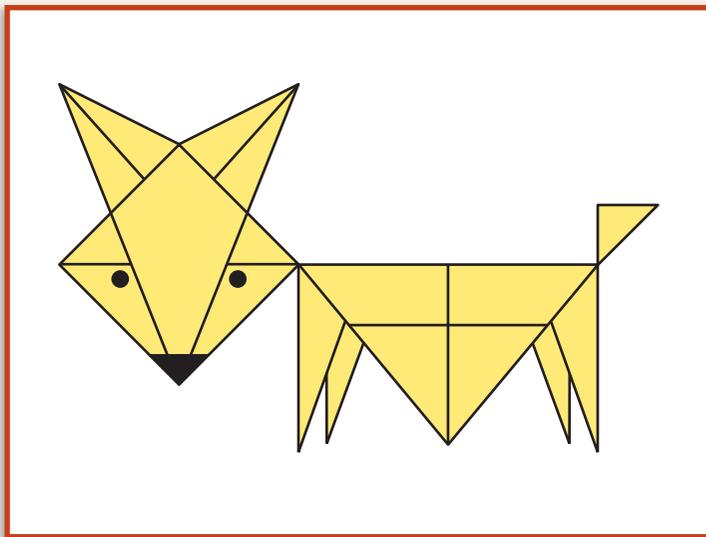

$$\text{cupcake with green frosting} \times \text{cupcake with blue frosting and bones} = \boxed{} - \text{cupcake with blue frosting}$$

$$\text{cupcake with blue frosting} \div \text{cupcake with blue frosting and bones} = \text{cupcake with green frosting} \div \text{cupcake with blue frosting and bones} \times \boxed{}$$

$$\text{cupcake with blue frosting} + \text{cupcake with green frosting} \times \text{cupcake with blue frosting and bones} = \boxed{} + \text{cupcake with blue frosting} \times 5$$

10.3 Combien de triangles y a-t-il dans ce dessin?

Il y a triangles.

12.1

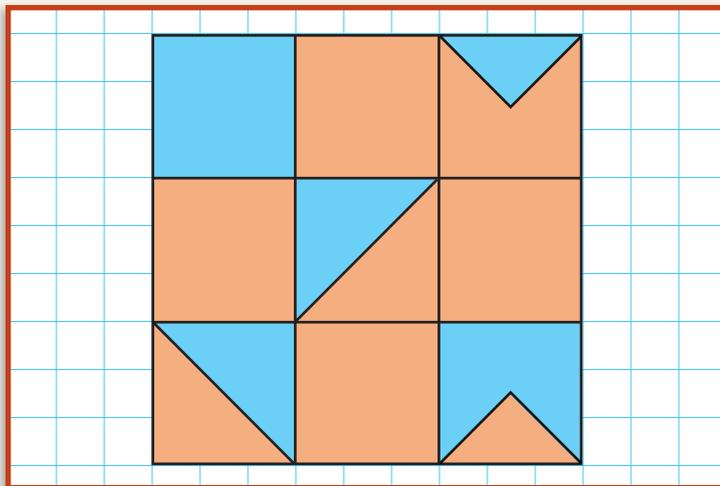

Combien y a-t-il de pianos dans cet ensemble? N'oublie pas de tenir compte des pianos cachés sous la flaqué d'eau.

Il y a pianos.

**13.4**

La partie bleue de la figure représente quelle partie de la figure complète?

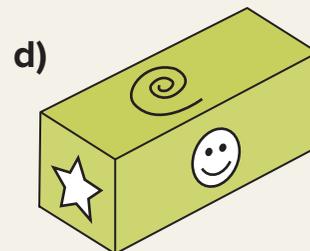

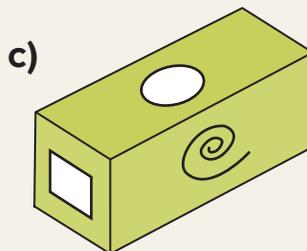

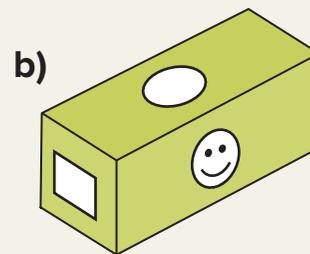

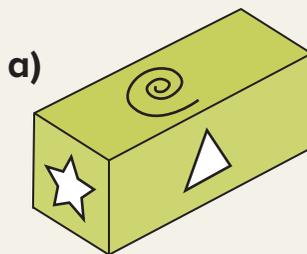

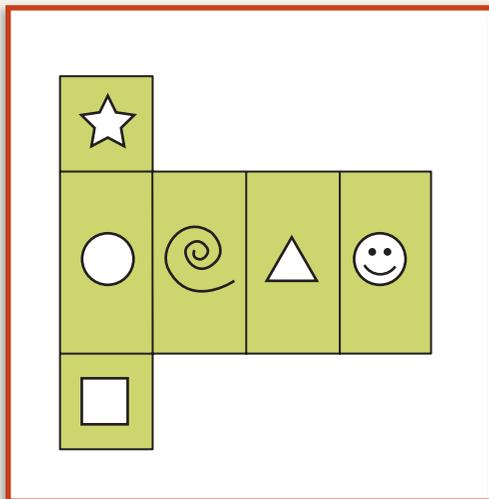

La partie bleue représente

de la figure complète.

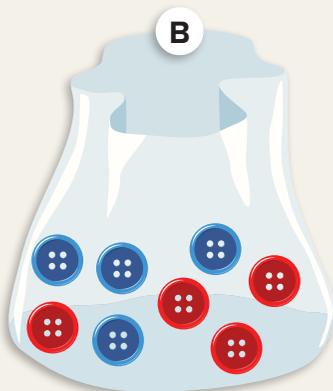

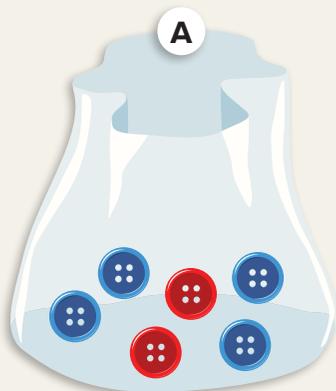

17.1 Si tu plies ce modèle, quel prisme à base carrée obtiendras-tu? Entoure-le.

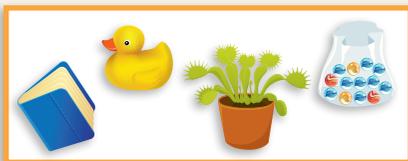

27.3

De quel sac est-il le **plus probable** de tirer au hasard un bouton bleu?

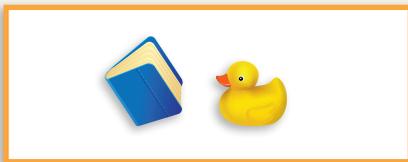

Réponse:

**28.4**

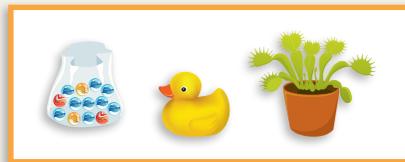

Zoé veut acheter un exemplaire des 4 objets présentés ci-dessous. Sachant que le livre vaut 9,05\$, combien d'argent lui manque-t-il si elle a 28,50\$?

16\$

13,30\$

25,20\$

Il manque à Zoé.
